

9/18/17

25th Annual Conference

**Psychiatric-Mental Health Update
November 3, 2017
Peachtree Banquet Center, Columbia**

This conference provides a forum for mental health professionals to increase their evidence-based knowledge and competence in caring for children, adolescents and adults with social, emotional and mental illnesses. The focus is team-based and multidisciplinary including both acute and community-based settings. The topics for this year's Update include suggestions from last year's participants, and input from the planning committee comprised of a diverse group of mental health practitioners, educators and state agency professionals.

For more information about the conference including registration details, you may go to the following website: <http://nursingoutreach.missouri.edu/psychiatric17.aspx>
